Brand New Book ***** Print on Demand *****.Excerpt from *The Beet Sugar Industry: A Short Treatise on Sugarbeet Culture and the Manufacture of Beet Sugar* In offering this little book to the intending beet grower, the capitalist wishing to invest money in this new and promising industry of manufacturing sugar from beets, we do not lay claim to present a scientific work, covering in detail every feature of the beet sugar industry. Our object simply is to explain, in condensed form, the main feature of the subject and to offer reliable help and counsel to the farmer who wishes to raise beets and the capitalist who is to manufacture them into sugar. The Sugar Department of The Fred W. Wolf Co., with its large staff of experts is in a position and stands ready at all times to assist by deed and counsel, all those who desire to engage in the beet sugar industry. The company will contract to furnish the machinery for, or erect sugar factories complete in every detail and will take it upon itself to furnish the skilled labor necessary for their successful operation. If desired the company will also put the factories built by it in operation, or conduct the first working campaign from start to finish, guaranteeing to turn out the best marketable product. We hope that our aim, presented by the following pages, to promote the introduction of this new and promising industry, will meet with intelligent understanding and enable those who wish to participate in it to save money.
